

**Project Planning Phase  
Milestone and Activity List**

Team ID	PNT2022TMID34277
Project Name	<b>Real -Time Communication System Powered By AI For Specially Abled</b>

TITLE	DESCRIPTION	DATE	ACHIEVEMENT
<b>Literature Survey &amp; Information Gathering</b>	Literature survey on the selected project & gathering information by referring the, technical papers, research publications etc.	20 September 2022	<ul style="list-style-type: none"> <li><input type="checkbox"/> Referring to <b>the previous findings made to understand the drawbacks that are present in the app.</b></li> <li><input type="checkbox"/> Able to <b>understand the technologies and methods used</b> in building of the system.</li> <li><input type="checkbox"/> <b>Helped us to know what would be the output if a technology is used.</b></li> </ul>
<b>Prepare Empathy Map</b>	Prepare Empathy Map Canvas to capture the user Pains & Gains, Prepare list of problem statements	20 October 2022	<ul style="list-style-type: none"> <li><input type="checkbox"/> Empathy map enabled us <b>to gather all the ideas at one single place.</b></li> <li><input type="checkbox"/> Successfully segregated the <b>pros, cons, public opinion and time required for building of the app</b> and other factors clearly.</li> <li><input type="checkbox"/> <b>Very helpful when we were at the scratch.</b></li> </ul>
<b>Ideation</b>	List the by organizing the brainstorming session and prioritize the top 3 ideas based on the feasibility & importance.	20 October 2022	<ul style="list-style-type: none"> <li><input type="checkbox"/> Brainstorming session enabled us to <b>join together and collectively give various ideas</b> to solve existing problem.</li> </ul>

			<input type="checkbox"/> Based on the priority, <b>best ideas to implement and booming technologies suggested were plotted in the graph</b> for clear cut understanding.

TITLE	DESCRIPTION	DATE	ACHIEVEMENT
<b>Proposed Solution</b>	Prepare the proposed solution document, which includes the novelty, feasibility of idea, business model, social impact, scalability of solution, etc.	21 October 2022	<input type="checkbox"/> Once the ideation was finished, we as team now <b>decided our own solution in order to solve the existing problem.</b>  <input type="checkbox"/> Document made on the Problem statement, customer satisfaction and uniqueness made to <b>understand the core of the existing problem, much better.</b>
<b>Problem Solution Fit</b>	Prepare problem - solution fit document.	21 October 2022	<input type="checkbox"/> Similar to ideation, where we were actually <b>thinking on the side of user and noted the pros, cons, issues faced in using the app.</b>  <input type="checkbox"/> <b>Pointed out the triggers and problem root cause and also the available solutions</b> that reduce the effects of their inability.  <input type="checkbox"/> See that, <b>the proposed solution can be a bonanza besides the available solution</b> to the disabled.

<p><b>Solution Architecture</b></p>	<p>Prepare solution architecture document.</p>	<p>21 October 2022</p>	<p>□ In this phase , we as a team made an <b>architecture diagram which would describe the role performed by admin, end user and the the operations being performed.</b></p> <p>□ <b>The operations involved in the proposed solution are briefed in this diagram.</b></p>
-------------------------------------	--	------------------------	--

TITLE	DESCRIPTION	DATE	ACHIEVEMENT
Customer Journey	Prepare the customer journey maps to understand the user interactions & experiences with the application (entry to exit).	21 October 2022	<ul style="list-style-type: none"> <li>Listed different factors like <b>Research, Comparison with others, working condition of the app, questioning and sign out.</b></li> <li>It made to <b>understand the customer's point of view precisely</b> before , at present and after using the app.</li> </ul>
Functional Requirement	Prepare the functional requirement document.	21 October 2022	<ul style="list-style-type: none"> <li><b>Stated the software and hardware requirements</b> required from user's side in order to use the app.</li> <li>Also <b>mentioned the specifications and the functionalities</b> required to use the app.</li> </ul>
Data Flow Diagrams	Draw the data flow diagrams and submit for review.	21 October 2022	<ul style="list-style-type: none"> <li>DFD is constructed in order to <b>understand the start and end process of app usage.</b></li> <li>Also, <b>mentioned the user stories along with their sprints</b> to determine the amount of time required in implementing the particular sprint.</li> </ul>
Project Development - Delivery of Sprint-1, 2, 3 & 4	Develop & submit the developed code by testing it.	IN PROGRESS...	<ul style="list-style-type: none"> <li>Entire development phase is <b>divided into four sprints.</b></li> <li><b>Design and build</b> each and every module .</li> </ul>

<b>Technology Architecture</b>	Prepare the technology architecture diagram.	21 October 2022	<ul style="list-style-type: none"> <li>□ <b>Given a detailed mindblowing architecture where all the technologies are used and also the sequential process</b> from start to end.</li> <li>□ <b>Sample outputs provided enriched the quality and importance</b> of using the app.</li> </ul>
<b>Prepare Milestone &amp; Activity List</b>	Prepare the milestones & activity list of the project.	22 October 2022	<ul style="list-style-type: none"> <li>□ Made us to <b>list the achievements obtained in each and every phase.</b></li> <li>□ Made us to <b>feel good and confident to move forward towards development phase.</b></li> </ul>

### ACTIVITY LIST

Activity Number	Activity Name	Detailed Activity Description
1.	Main page	As a User, I can enter the web page once clicked, which provides be the <b>Guidelines</b> to use the app
2 .	Guidelines	As a User , I can give a read through the <b>guidelines to understand the functioning of the app.</b>
3.	Camera(Hand movement detection)	As a User, I can show my hand sign <b>towards the camera which converts them into text manner.</b>

4.	<b>Voice mode</b>	Once the text is obtained, As a User I can <b>click on the voice mode which provides the text in the form of speech.</b>
5.	<b>Provide the necessary functionalities required to use the app.</b>	As an Executive, I can <b>provide the Specifications of Camera required, and other factors</b> that are required for smooth functioning of the app.

<b>Activity Number</b>	<b>Activity Name</b>	<b>Detailed Activity Description</b>
6.	<b>Check the performance of the app</b>	As an Executive, I can <b>check the usage and queries obtained from the end users.</b>

7.	<b>Receive queries based on the usage</b>	As an Admin, I can <b>take the queries from the customer care and perform the testing phase again , loading the other signs in the dataset</b> , in order to make the customers to use the app effectively.
